Files:

325design.sql --- layout for the database
325populate.sql -- population of the database
325queries.sql --- common queries for the database
325report1.sql -- report for database
325report2.sql -- report for database
325report3.sql -- report for database

To run the database:

In sql first run 325design.sql
Then, run 325populate.sql

From there, you will be able to run the queries and reports.
